"Yes prostate cancer had a big impact on many aspects of my life, including the sexual side. As a result, I appreciate every chance to contribute to research and make a difference in the lives of other men."

MEN AND SEXUAL HEALTH-PROSTATE CANCER STUDY

HOW HAS PROSTATE CANCER AFFECTED YOUR SEX LIFE? WHAT SUPPORT DO YOU NEED?

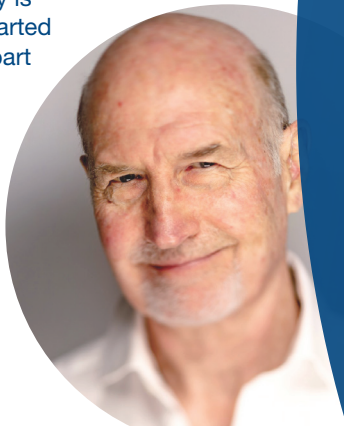

Tell us your story.

The Men and Sexual Health-Prostate Cancer study is recruiting men from around the world who have started or received treatment for prostate cancer to take part in a 30 minute online survey.

The study examines how prostate cancer affects a man's sense of themselves (masculinity), their sexual concerns after treatment, and overall quality of life.

Our aim is to develop better ways to support men with prostate cancer in the future.

Help other men affected by prostate cancer by sharing your experience.

"The more we know about the impact of prostate cancer on men's lives, the more we can help them and their wives/partners."

ARE YOU ELIGIBLE?

-  I am over 18 years old
-  I have been diagnosed with prostate cancer

HELP SPREAD THE WORD

So that we can reach out to as many men as possible, please share this survey with your networks and other men affected by prostate cancer and help make a difference.
